

PF8 Pro PORTABLE WIND SCREEN

GENERAL DESCRIPTION

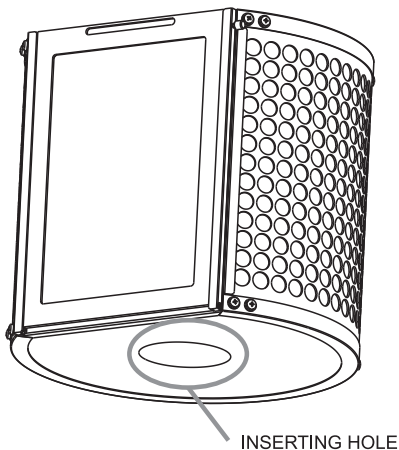

PF8 Pro made of high quality noise reduction foam and the shell made of aluminum mesh wind screen. Through noise reduction foam can absorb and reflect the noise from surrounding. PF8 Pro isolates your microphone in a quiet recording space. By focusing your voice to an isolated microphone, the PF8 Pro is able to capture the complete spectrum of your voice and reduce much of the external environment, all the while giving you clear and concise vocals free of any coloration. PF8 Pro wind screen can not only reduce the sound reflection during recording, but also reduce the wind and noise's disturb from outside effectively.

FEATURES

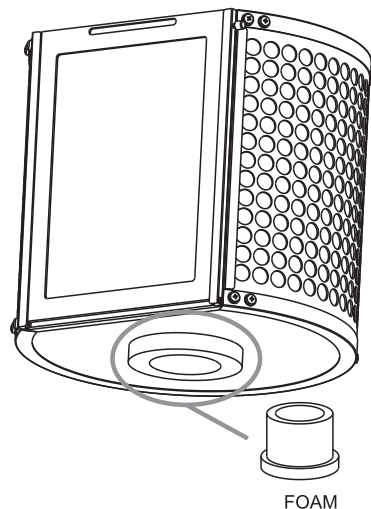

- * Optimize your sound;
- * Reduce later modification;
- * Reduce noise and sound reflection;
- * Tiny volume, easy to carry.

HOW TO USE PF8 PRO

- 1** If your microphone's diameter is 54-65mm, you can direct put the microphone into wind screen;

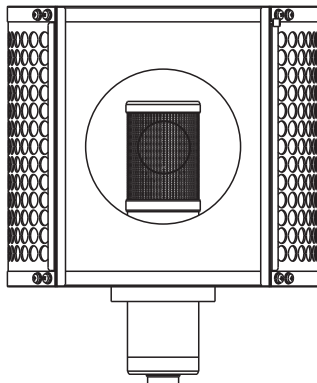

- 2** If your microphone's diameter is 45-53mm, you need to add the foam, then insert the microphone into wind screen;

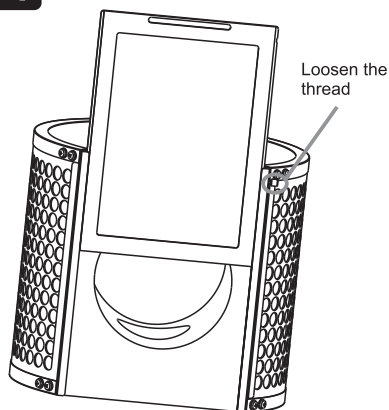

3

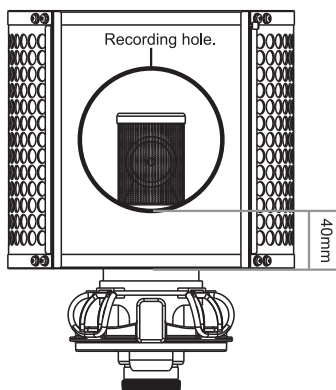

Insert the microphone into wind screen;

**4**

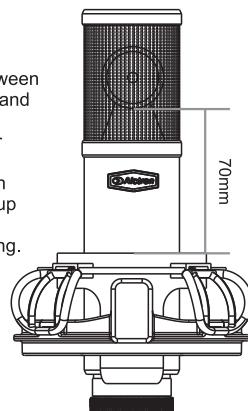

The door can be detachable.

**NOTE:****5**

The capsule's front should aim to recording hole.

**6**

The distance between shock mount top and capsule bottom should be greater than 40mm, if distance less than 40mm will cover up the capsule, then affect the recording.

**TECHNICAL SPECIFICATIONS**

- * Diameter: 200mm
- * Height: 180mm
- * Length: 150mm
- * Width: 105mm
- * Inserting hole diameter: 53mm (with foam: 45-53mm; without foam: 54-65mm)
- * Weight: 461g

Ningbo Yinzhou Alctron Electronics Co.,Ltd always try to guarantee and improve the quality of product, necessary modification will go on without prior notice. So the specification and appearance may be a little differ from description or illustration, hope your understanding.

PF8 Pro 防风屏

产品介绍

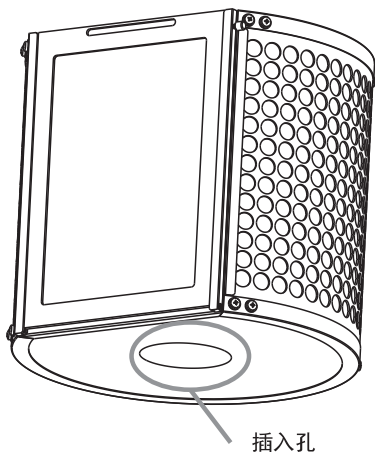

PF8 Pro是一款采用优质降噪海绵设计加工而成的降噪圆柱防风屏，外壳有铝网板制作而成。通过降噪海绵对周围噪声进行吸音反射，PF8 Pro能把您的麦克风隔离在一个安静的录音空间内，在录音和演唱过程中使得麦克风能对您的声音进行专一的收录。PF8 Pro能够帮助您在录音过程中录制完整的声谱以及大大减少外部环境噪音，同时也让您录制的声音清晰纯净。PF8 Pro防风降噪屏不仅能减少室内录音声音的反射而且能有效减少户外风和环境噪声对人声录制的干扰。

特点

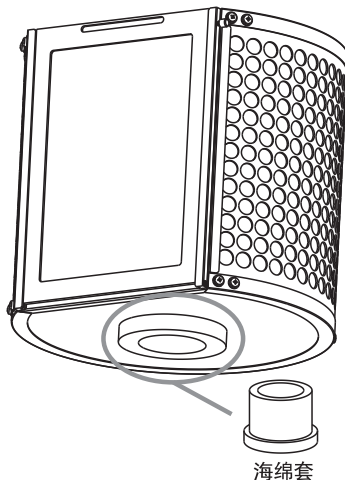

- * 优化您的声音；
- * 减少后期声音修整；
- * 减少环境噪声和声音反射；
- * 体积小，便于携带。

如何使用PF8 Pro

- 1** 如果您的麦克风直径是54-65mm, 您可以直接将麦克风放入防风屏;

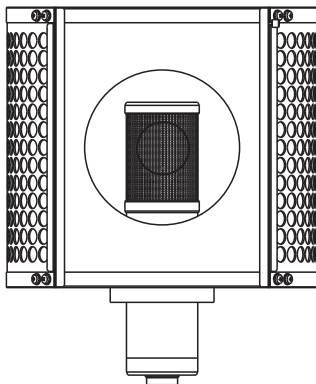

- 2** 如果您的麦克风直径是45-53mm, 您需要把海绵套加上再将麦克风放入防风屏;

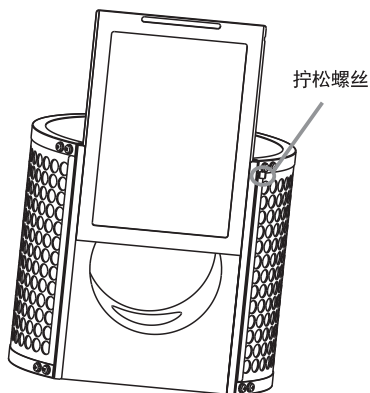

3

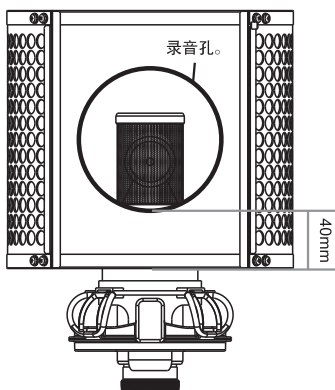

把麦克风放入防风屏；

**4**

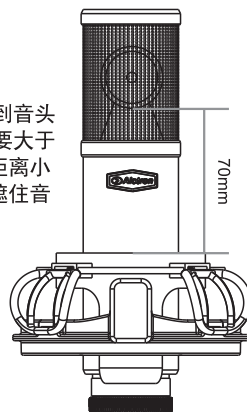

防喷罩的拉门是可以拆卸的。

**注意：****5**

音头收音面正对着录音孔。

**6**

防震架最高点到音头最底端的距离要大于40mm，若是距离小于40mm就会遮住音头，影响录音。

产品参数

- * 直径： 200mm
- * 高度： 180mm
- * 长： 150mm
- * 宽： 105mm
- * 插入孔直径： 53mm（带海绵套： 45-53mm； 无海绵套： 54-65mm）
- * 重量： 461g
