

## VCM5

Condenser Video Microphone for DSLR & Smartphone

### User Manual

### Introduction:

The VCM5 is a compact supercardioid condenser microphone designed to offer high-quality audio for your recording. It reduces distracting ambient sounds on the audio in front of the camera & smartphone. The microphone's pickup provides natural & crystal sound when recording. It is made from aluminum, which gives high level of RF rejection, The FW-3 foam & furry windscreen in one provides good recording experience when outside. The VCM5 includes TRS & TRRS two output cables allows you to record audio to both DSLR and smartphone.

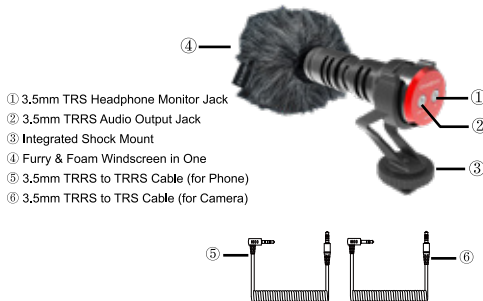

### Highlights:

- Output to both DSLR camera and smartphone
- High-quality supercardioid condenser microphone
